**Multifunction
frame plug
MFR**

**MFR
Ø10
IMPROVED**

Multifunction frame plug MFR

Assortment

SB TX

- zinc plated
- stainless steel A4
- hot-dip galvanized

SB SSKS

- zinc plated
- stainless steel A4
- hot-dip galvanized

FB SSKS

- zinc plated
- stainless steel A4

Mounting

MFR 10:
Now with two
setting depths

Mounting flat rim plug with hex-head screw with integral washer

Mounting countersunk plug with countersunk screw

Approvals and certificates

Suitable building materials

- Concrete
- Solid brick
- Solid sand-lime brick
- Aerated concrete
- Hollow brick
- Hollow sand-lime brick

- Precast prestressed hollow core slabs
- Lightweight hollow concrete blocks
- Natural stone
- Lightweight solid concrete blocks

Approved for **all** base material groups (see ETA)!

MFR 10 Advantages

Setting depth 50 mm and 70 mm
for a big variety of applications

Long expansion area and early expansion achieved by **lateral bars** ensure **secure hold**

Flat rim plug prevents **contact corrosion**

Wide range:

- zinc plated
- stainless steel A4
- hot-dip galvanized

All lengths **pre-assembled**

European Technical Assessment for concrete and masonry (see ETA)

Countersunk plug for **smooth mounting** in fixture

MFR 10 Application examples

Suitable for metal façade substructures

Suitable for wooden façade substructures

Approved for precast prestressed hollow core slabs

Approved by company Hörmann for **fire protection doors** in solid building materials

Permissible load in all directions, N_{per} = permissible tension load, V_{per} = permissible shear load according to ETA assessment for zinc plated screws

(For MFR with hot-dip galvanized screw: These values can be used as recommended loads)

Values apply to an average temperature range in the wall of max. + 24° C (temporarily + 40° C).

If the sustained average temperature is +50° C (temporarily +80° C) load capacities are reduced. In this case, refer to the assessment.

For further information regarding masonry (brick types and sizes) please refer to the assessment.

Spacing and edge distance
